

1"

Printed squares must measure 1 inch for chart to be accurate.

JumboMax® Grip Sizing

The length of your middle finger will determine the recommended JumboMax® Grip size. If your measurement is in-between, use the smaller size. Or, try one of our trial kits and use the size that feels comfortable for you.

JumboMaxTM
BY DOMINANT GOLF

Place crease line of your wrist on the base line. Use the crease line closest to your palm.

(Chart will work for left-handed golfers too by placing wrist crease on the line and measuring middle finger.)
